PLANNING & ENVIRONMENTAL SERVICES (Resolution No. 854)

No application or request authorized by Roy City Code shall be examined or considered by the City until the applicable intake fee and deposit fees have been paid in full by an applicant. The city planner determines the proper classification for each project permit application. An application involving two or more classification types may be processed collectively under the highest type required, if the applicant wishes. (RCC 11-4-2)

Calculation of Total Fees

1. The total fee for which the applicant shall be responsible shall include the actual costs incurred by the City in processing the application or request as follows:

a) All services provided by City staff shall be charged at a rate equal to current hourly wages and benefits, plus 15% overhead;

- b) All services provided by the City Attorney and Hearing Examiner shall be charged at the same standard hourly rate charged to the City for his or her services;
- c) The actual costs of mailing, publishing and posting required legal notices;
- d) The actual costs of reproducing maps or other graphics;
- e) Recording fees paid by the City of Roy; and
- f) Planning, Engineering, or other consultant services as required in the review and/or processing of the application.

2. The total fee referred to in subsection 1 shall be reduced by the amount of the deposit paid. The applicant shall remit to the City the amount by which the City’s actual costs exceed the deposit fee within 30 days of request for additional payment. Failure on the part of the applicant to remit this amount within the 30-day period may, at the City’s discretion, cause further work by the City on the application to be delayed. If the deposit fee exceeds the City’s actual costs, the balance shall be refunded within 30 days of final approval.

Consultant Costs and Guarantee of Payment

If the City contracts directly with a consultant to prepare required studies or documentation, the City shall advise the applicant of the projected costs of the study prior to actual preparation. The applicant shall post a cash deposit to ensure payment of such costs and the City’s anticipated actual costs associated with the engagement of the consultant, prior to commencement of work on the studies or documentation.

Cancellation, Withdrawal or Denial of Application or Request

If any application or request is withdrawn or cancelled, the applicant shall remain responsible for payment of the City’s actual costs incurred prior to its receipt of a written cancellation or withdrawal notification. If City action on any such application or request is denied, the applicant shall remain responsible for payment of the City’s actual costs incurred prior to the denial. If an application or request is withdrawn, cancelled or denied, the actual costs incurred by the City for which the applicant is responsible shall be calculated as outlined above.
