

Roy City Council Questions March 2024

1. What are your ideas to bring all of Roy together? To attempt to get rid of or at least lessen many of the divides such as:
 - A. the divide in the Roy City Council?
 - B. the divide of the Roy City Council and the mayor and city workers? What happened?
 - C. historical Roy - new Roy?
 - D. progress – Keep Roy the way it is?
 - E. we need new revenue- no keep it the same?
 - F. and other divides that are causing such friction?

I feel without the council working together for the good of the City of Roy nothing good can or will happen.

2. What is happening towards getting the needed money/systems to provide clean water for the people in Roy? What is the plan and the action being taken? Can we locate new wells.

I feel that when the city is providing water and people are paying for the water, there is an agreement that the water is clean and safe to drink.

3. Why did Ed Dunn not get voted on the council?

I feel he is, highly qualified, he stated he was in the military which taught him to get along with others for the greater goal of the needed mission. I feel that qualifies him right there. I feel that is what we need! Someone that will work for the mission of the betterment of Roy, for all citizens. He has technology and research skills that I don't even understand. He is needed in the council! Is that common to do to an application to Roy City Council? Was that how the last eight or so council members were treated or approached? What was right about it?

4. How can we all work together to get things done for the betterment of Roy to make life better for the people of Roy?
5. What can happen or needs to happen so each of the council members come prepared or know what is going on? I feel that in doing so the Roy City Council Meetings could have less behind the door meetings. Which could encourage more people to be engaged in our city meetings.

Sincerely,
Shauna Baker
