# City of Roy Receives 2024 Risk Management Achievement Award

10/17/2024

The City of Roy is proud to announce that it has been awarded the 2024 Risk Management Achievement Award, recognized at the recent 2024 Annual Meeting of the Risk Management Services Agency (RMSA). This award is a testament to the City's commitment to safeguarding its community through proactive and effective risk management strategies.

RMSA acknowledged members who have demonstrated excellence in prioritizing and implementing risk management practices to protect their communities. The City of Roy stood out for its improved claims history, active participation in risk management inquiries and contract reviews, and the successful completion of key risk management training programs. We are honored to receive this award. This recognition reflects our ongoing efforts to reduce risk, protect our citizens, and ensure that the City of Roy is a safe and secure place to live and work.

It's a proud moment for our entire community.

The Risk Management Achievement Award highlights municipalities that go above and beyond in managing risk and promoting safety within their communities. By enhancing risk management practices, the City of Roy has taken significant steps to ensure that the best practices are in place to reduce risks and keep the community safe.
